You don't need the ticket to get on the train. You only need it to exit from the station you arrive at.

Return tickets: A return ticket means the passenger returns to the departure station when taking the home-coming ride, and that the outbound and inbound routes and seat and train types are the same.

Visitors may purchase tickets by the station windows or vending machines. They may also book tickets online and get the tickets at a train station, post office or convenience store.

Payment may be made in cash or with credit card.

If getting the tickets at a convenience store, please use the store's multi-media machine. Follow instructions, key in booking info, and have the order sheet printed. Pay by the counter in 10 minutes or the sheet will become invalid (but may be printed again).

Booking System: http://railway.hinet.net/net_eng.htm

After booking tickets online or via phone, please complete payment in two days after the order, either at physical ticket point or online. If the tickets are booked two days or less from the departure day, payment must be made at least one day prior to departure. If the tickets are booked on the day of departure, payment must be made at least 30 minutes before the train leaves.

Pre-orders start 12 days prior to the day of departure.

No particular tickets are reserved for on-site passengers.

Please pay for and get the tickets with a valid ID and order No. at a train station or post office.

Please make sure the date, train number, ticket number, and amount of payment are correct on site, when getting the tickets.

ONLINE Buchung nicht sinnvoll, da Ticket 30min vorher abgeholt werden muss!!!

If you have paid TRA tickets, you can collect your TRA ticket until the last 30 minutes before departure time.

For a foreign traveler, finish booking and payment online at the same time would be better . You can collect your ticket at convenient stores. Just show the staff of convenient stores your ID and ticket SN and they can help you to operate the kiosk.

There are over 10,000 convenient in Taiwan. It costs only extra NTD 10(HSR)/NTD 8(TRA) for each ticket.

Don't collect your ticket at the train station at the last minute since there could be a long queue in front of the ticket window.
